

We deserve to be able to select specific channels that we want in our households. I am very upset that I do not have any choice but to have to pay for certain channels that I either don't want or do not have appropriate programming for my family. Network executives should not have the right to demand that our local cable/satellite company carry all of a certain network or none at all, which is exactly what's happening thanks to the Telecommunications Act of 1996. Please repeal this act or modify it so we consumers have true choice in our TV programming.
